**Power Cost Adjustment (PCA)**

Summer Base Rate (June – August)	\$.056/kWh
Winter Base Rate (Sept. – May)	\$.056/kWh

In conjunction with the new rates effective December 18, 2024, MRES Rate Study recommended calculating the PCA on an annual basis in December for the following year using a single PCA base for all months, proposed at \$0.056 per kWh. This is what our Board adopted to follow, and no PCA adjustment is currently being applied to monthly bills.
